EXECUTIVE SUMMARY

Data Science postgraduate with expertise in Data Analysis, Machine Learning, Python, SQL, Power BI, and Business Intelligence. Experienced in developing analytical and AI-driven solutions, building interactive dashboards, performing data visualization, and automating business processes. Skilled in transforming data into actionable insights through statistical analysis, predictive modeling, and reporting. Strong foundation in problem-solving, data engineering concepts, product quality assurance, and delivering scalable solutions that support business growth and operational efficiency.

INTERNSHIP & PROFESSIONAL EXPERIENCE

Product Engineering Intern | D2R AI Labs **Apr 2026 - May 2026**

- Conducted manual software testing and quality assurance across business-critical application modules.
- Tracked, documented, and validated defects while supporting product improvements and release quality.
- Evaluated finance, taxation, and accounting workflows to ensure functional accuracy and reliability.

Finance Analyst Intern | Aionion Capital Pvt Ltd **May 2025-Aug 2025**

- Analyzed financial and taxation datasets to support Income Tax Return (ITR) preparation and compliance.
- Performed data validation, categorization, and computation to identify eligible deductions and improve reporting accuracy.
- Assisted in tax analysis, documentation, and financial reporting using structured data workflows.

3D Designer & Data Analyst - S S POWER SOLAR | Freelancing **Nov 2024 - Apr 2025**

- Designed residential and commercial solar panel layouts using SketchUp and AutoCAD based on site and customer requirements.
- Analyzed electricity consumption, solar generation, and energy savings to build interactive Power BI dashboards for performance monitoring and business insights and data-driven reports on power usage, system efficiency, and financial benefits to support decision-making.

EDUCATION

- M.Sc., Data Science - Loyola College (2025-2027) - Pursuing **(8.0 CGPA - 3rd Semester)**
- B.Sc., Mathematics - Loyola College (2022-2025) - **7.0 CGPA**
- HSC - Daniel Matriculation Higher Secondary School, Chennai (2022) - **85%**
- SSLC - Daniel Matriculation Higher Secondary School, Chennai (2020) - **86%**

PROJECT

TAXGUARD 360 – Automated Tax Regime Advisor & TDS Risk Scoring (ML)

- Developed an intelligent tax analysis system to automate income tax computation, deduction validation, and TDS risk assessment based on Indian Income Tax regulations.
- Designed analytical workflows for tax regime comparison, deduction eligibility analysis, and personalized tax recommendations to improve reporting accuracy.
- Evaluated predictive models and generated explainable insights for efficient tax planning and compliance.

Botinigo.com – AI Admission Chatbot Platform

- Built a structured knowledge repository by converting Loyola College admission prospectus into Markdown and semantic document chunks.
- Generated vector embeddings and indexed them in Upstash Vector Database for fast and context-aware admission information retrieval.
- Optimized document organization to improve search accuracy and response relevance.

GuideToFile – India's ITR Optimizer

- Developed a tax optimization platform to estimate income tax refunds, tax liabilities, and eligible deductions using the latest Indian tax regulations.
- Automated tax calculations, old vs. new regime comparison, deduction analysis, and downloadable report generation for simplified ITR filing.
- Improved user experience through structured financial workflows and real-time tax estimation.

CORE DATA & TECHNICAL SKILLS

- **Programming Languages:** Python, SQL
- **Data Analysis & Visualization:** Pandas, NumPy, Matplotlib, Power BI, MS Excel
- **Database Technologies:** MySQL, MongoDB, Upstash Vector Database, Firebase
- **Data Science & Machine Learning:** Exploratory Data Analysis (EDA), Data Preprocessing, Feature Engineering, Regression, Classification, Model Evaluation, Scikit-learn, Predictive Analytics
- **Data Engineering:** ETL Concepts, Data Cleaning, Data Pipelines, Structured & Semi-Structured Data
- **AI & Generative AI:** Prompt Engineering, Semantic Search, Vector Embeddings
- **Software & Tools:** Git, GitHub, VS Code, Jupyter Notebook, Vercel, Canva
- **Business Intelligence:** Dashboard Development, DAX Basics, Data Reporting, KPI Analysis

CERTIFICATIONS

- Data Analytics and Artificial Intelligence | META LIVE COURSES - Loyola College
- Python and SQL | Besant Technologies, Chennai
- Power Bi | Besant Technologies, Chennai
- Data Analytics | GUVI | IIT Madras | Chennai
- Data Science & Machine Learning | Coursera

PUBLICATIONS

Comparative Urban Climate Analysis of Indian Cities **Feb 2026**

Conducted a comparative study of temperature patterns across major Indian cities using historical climate data. Analyzed city-wise trends and documented insights to understand urban climate variations.

PROFESSIONAL & CAMPUS ACTIVITIES

Technical and Media Secretary | Loyola Mathematics Association **Jun 2024 – Apr 2025**

Managed the association's technical activities, digital media, event promotions, and coordinated departmental workshops and competitions.

UG Outreach Organizer & Documentation Team Head | Loyola College **Jun 2023 – Apr 2024**

Managed the association's technical activities, digital media, event promotions, and coordinated departmental workshops and competitions.

Technical Committee Member | Loyola Mathematics Association **Jun 2023 – Apr 2024**

Supported the planning and execution of technical events, workshops, and student engagement activities within the department.

Class Representative | Loyola College **Jun 2022 – Apr 2023**

Represented the student community by coordinating academic communication between faculty and students.

NOTABLE ACHIEVEMENTS

- Overall Winner – MATHLETS 2025, D.G. Vaishnav College.
- Winner – Model Making Competition, Ethiraj College for Women.
- Event Organizer – Infinitrix 2025 and Mathfest (2024 & 2025).
- Participated in SecureHack, Coreline Software Solutions.
- Completed AI & Data Science Workshop, Loyola College.
- Participated in intercollegiate technical and academic competitions.

LANGUAGES

- English
- Tamil
